

OFFER AMPLE AREA FOR MARKET SITE

Buzzards Point Advocates Claim Space Available to Meet Future Demands.

Contending that the new Farmers Market site should be sufficiently large to provide for necessary expansion for years to come, advocates of the Buzzards Point location filed a brief with the Commissioners today in which they laid stress upon the amount of ground available there at prices that would justify purchase of an extensive area.

Through Attorney Milton D. Campbell, supporters of this site direct particular attention to a strip of land embracing six blocks bounded by P street southwest, on the north; V street on the South; Half street southwest, on the East and First street southwest on the West.

Among the arguments advanced in support of this locality in the brief are the following: That the land is level, the streets are wide and improved with water and sewer service and water facilities could readily be provided, there would be ample parking space in the vicinity, and that farmers as well as others could reach the site without having to cross Pennsylvania avenue west of the Capitol.

Supporters of this proposal also emphasize that the Government already owns 200,000 feet of ground in the vicinity, a portion of which fronts on the Anacostia River.

The Commissioners should recommend a site for the market which will be large enough to permit the expansion necessary to meet the needs of a city with a population of two or three millions," the brief declared.

"To recommend anything less would be shortsighted, and in a few years the Government would be confronted with the proposition of obtaining additional land at a price far in excess of the present cost.

Business Gains Cited. "Consideration should also be given to the fact that economic reasons will tend to draw wholesale produce merchants, cold storage plants and business of a kindred nature to the same general area as the Farmers' Market.

"Merchants and others who have business at the market, the wholesale houses and storage plants can then visit all three without traveling to widely separated sections of the city. The space necessary to provide for such wholesale produce houses and storage plants even now is large and the amount of space required will of course increase with the growth of the population."

The brief states that the proposed site would accommodate 2,000 wagons or trucks, allowing seven feet for each. The supporters of this site told the Commissioners that it is but a few minutes ride from the center of the city and in an area where there are no other industries or Government buildings, thus insuring ample parking space for market business.

Access Held Easy. "We think it is in evidence," the brief continues, "that 80 per cent of the produce sold at the Farmers' Market is sold wholesale. The remaining 20 per cent is sold to persons scattered all over Washington, and it is fair to assume that a large number of those who buy retail live in the southwest, southeast and northeast sections of the city."

"Many of those who buy retail at the Farmers' Market own automobiles. For those who own machines the proposed site, with an abundance of parking space convenient to the market, would be far more desirable than a more central location with congested traffic and inadequate parking space.

SMITH ASSAILS ROOSEVELT CHARGE

Declares Colonel's Attack on His Wor' Is "Loose and Foolish"

NEW YORK, November 3.—With a challenge that evidence be produced to substantiate charges of vice in the county in which New York's Capitol is located, Gov. Alfred E. Smith struck back at Col. Theodore Roosevelt in a statement published today. The governor termed charges by the colonel "loose and foolish."

In speeches before the Republican State convention at Rochester and in this city Col. Roosevelt attacked Tammany as corrupt and blamed Tammany and the governor for conditions in Albany.

"Col. Roosevelt has little interest in the welfare of the State of New York when at the height of a campaign for constitutional amendments he uses up the time of the public to make a personal attack upon me," said the governor's reply.

One of the amendments the governor referred to would provide for the election of governors in presidential years, a measure fostered by the Republicans and similar to one recently defeated in New Jersey.

Gov. Smith said that Col. Roosevelt "is entirely without understanding of the State's fiscal system."

Roosevelt's charges that police raids on Tammany Hall clubhouses had revealed open gambling were admitted by the governor, who met them with a counter charge that similar raids had been made on Republican clubhouses, in one of which police encountered gunmen with police records who were in the employ of the Republican club to protect the play.

Addressing Col. Roosevelt, Gov. Smith said in his statement: "If you have any information, about official neglect on the part of the officials of Albany County and will file charges with me in proper form as required by statute, I will proceed against them as a governor should proceed exactly as I have proceeded in all other cases where complaints were properly filed."

"In the meanwhile please do not insult the intelligence of the people of the State by attempting to lead them to believe that the governor is a policeman and should go out patrolling his post every night looking for violators of the law."

"Quit the job of trying to pull the red-hot political chestnuts out of the fire for the discredited leaders of your old, broken-down, dilapidated, corrupt Republican machine."

"You made some rash and foolish statements that were so bitterly criticized by the press of the country and by members of your own party."

To charges of Col. Roosevelt that he had investigated law violations in Republican counties while ignoring conditions in Democratic counties, Gov. Smith said he had ordered inquiries made into every irregularity according to the procedure required by law, regardless of political territorial lines.

RECORD MASONIC VISITATION IS MADE

Four Lodges Included in Day's Dunkum.

A record was established yesterday when Grats Dunkum, grand master of Masons in the District of Columbia, accompanied by the officers of the Grand Lodge, made grand visitations to four of the subordinate lodges. An official call was made on King Solomon, No. 31, the "daylight" lodge, of which Gaston D. Johnstone is master, yesterday afternoon; to Washington-Centennial Lodge, No. 44, Milton S. Brown, master, at 8 o'clock; and to Osiris Lodge, No. 26, Gen. George Richards, master, and to Theodore Roosevelt Lodge, No. 44, Joseph T. K. Plant, master, in joint visitation, at 8:30 o'clock last evening.

Washington-Centennial Lodge is, numerically, the largest Masonic body in the District of Columbia, having a membership of 1,391, a noticeable proportion of which was present at the visitation. As it had the "short-end" of the call last evening, it could not provide anything in the way of entertainment, but presented to Grand Master Dunkum a mammoth basket of flowers, to be taken to Mrs. Dunkum. Following the ceremonies in King Solomon Lodge, William O. Raymond contributed vocal solos, and King
